5 - Fort Routes - Rio de Janeiro, RJ

This project was developed by LTDS/COPPE/UFRJ _ Laboratory of Technology and Social Development _ in partnership with the Brazilian Army, along with a variety of institutional support indicated in the accompanying pamphlet. It is a tool (website) to assist in visits to the forts and fortresses of Guanabara Bay, containing:

- Options for visitor itineraries, different routes connecting the fortifications and surrounding points

- Options for internal visitation routes in the various fortifications

The web documentary "We of the Fort" is composed of five short videos about the presence of the forts in the everyday life of people in the cities of Rio de Janeiro and Niterói:
